

Eltham High School

Purchasing the school managed bring your own device for 2023

The recommended method is to buy the approved device from *JB HiFi Solutions for Education*. *JB HiFi Education* is a separate organisation from the *JB HiFi* retail stores.

JB HiFi Education have set up an Internet portal for the purchase of an approved Eltham High School device.

The address of this portal is <https://www.jbeducation.com.au/byod/>

The password to access the portal is: EHS2023.

The portal takes the user through a number of steps.

1. Select A Student Program. (We only have one)
2. Choose a pickup option. Only one pickup option is offered - from Eltham High School - early December
3. Select a device, Three price levels are offered: \$1865.50, \$1955.50 and \$2392.50. Add the chosen to the cart.
4. After you have added the chosen computer to the cart you are offered options.:
 - a. Nominate for Microsoft Surface Pro Extended Warranty (Up To 3 Years Cover). It takes the 2 years advance replacement warranty from 2 to 3 years. \$81.00
 - b. Nominate for Microsoft Surface Pro Complete for Student (Extended Warranty + Accidental Damage Protection, ADP Up To 3 Years)(2 Claims): \$180.00**

The prices on the portal include: 2 years advanced replacement warranty*, a type cover, a Surface pen and a protective case. Without the protective case the Surface Pro is quite fragile. A bump off a school desk will break it without the protective case. The protective case has rubber bumpers on all corners.

* The advanced replacement warranty is not available from in-store purchases. Microsoft sends the replacement before you have to return the old one. A replacement arrives much sooner and, in many circumstances, the old computer can still be used in the meantime.

** The school's experience indicates the ADP to be good value. We get many broken screens and some students have made the two claims. There is no excess. With the advanced replacement model, the time lost is greatly reduced and there is less interruption to the student's learning. Less stress for all. The normal repair cost for a Surface Pro is \$639.00.

The Australian Securities and Investments Commission has introduced new regulations regarding the sale of add-on insurance products. These regulations mean that there is required to be a 4 day 'pause' between the purchase of a device and any add-on insurance associated with that device. (explained further on the portal)

The school's IT Department facilitates all claims for warranty and insurance on computers purchased through the portal.
